The EZ Stab Bolt Slot System provides increased strength and stability for easier ceiling grid installation.

### Features and Benefits

- **Narrow 9/16” face features a 1/8” center regress and is compatible with certain narrow reveal edge panels**
- **ICC certified (ESR-3336) and compliant with L.A. Research Report number 25978**
- **Double-stitched web design for lasting durability and strength**
- **Intermediate- and heavy-duty certified profiles available for all seismic applications**
- **Grid features fully painted and G30 hot-dipped galvanized steel construction for corrosion resistance**

- **Mitered design on cross tee and main runner intersections produces a clean, continuous slot with multiple lengths and miter spacing to accommodate many module sizes**
- **EZ Stab clip technology allows for a fast and strong connection on cross tees with added removability**
- **Available in standard white only (consult your Sales Representative about custom colors)**

*SM1020 is not hemmed along 3/4” side

**Maximum recycled content percentage. Recycled content varies by manufacturing location.**

**Allowable concentrated loads at midspan are determined in accordance with ACI368 Section 3.2. For each framing member, the allowable concentrated load must not be combined with the allowable uniform load.**

Use Standard 9/16” Wall Angle and Shadow Molding.
