A superior roof is stronger than the sum of its parts

A quality roofing system involves the underlayments, shingles, accessory products, and ventilation all working together. Day after day, year after year.

At CertainTeed, we call that the Integrity Roof System

The Integrity Roof System is designed to provide optimum performance — no matter how bad weather conditions are. After all, better quality shingles mean longer-lasting roofs. Add in underlayment and accessory products, and you’ve got a roof system that really works.

When you choose an Integrity Roof System you gain the advantage of having CertainTeed as your single manufacturing source to stand behind its roof system components.

If different brands of products are installed on your roof, then you do not gain the full value of a complete roof system.

Insist upon the Integrity Roof System and get the ultimate in roof performance!

For more details about the Integrity Roof System or any of the information contained in this brochure, visit the CertainTeed website at www.certainteed.com or call us at 800-782-8777.
