Cedar Impressions®
Single 7" Straight Edge Perfection Shingles

Ageless Beauty
Capture the beauty of natural cedar.

Keep the look forever.

Throughout its lifespan, the beauty of natural cedar changes with the effects of time and weather. CertainTeed now makes it possible to choose the cedar appearance you prefer – freshly sawn or aged. With Cedar Impressions Single 7” Straight Edge Perfection Shingles, you keep the look you choose forever.

Cedar Impressions Single 7” Straight Edge Perfection Shingles are the industry’s first polymer shingles that feature an innovative, blended color throughout.

Artisans accustomed to working with natural cedar, and craftsmen skilled with polymer and other siding materials, now have a design alternative – Cedar Impressions Single 7” Straight Edge Perfection Shingles. It offers complete creative freedom and enable a home’s exterior to retain its new and beautifully carpentered appearance.
On average, polymer siding saves time and money when compared to maintaining other siding options or painted exteriors.*

- $5 polymer siding / soap and water
- $3,500–5,000 other siding / paint

*For 3000 sq. ft., multi-story home, professionally painted, with repainting every 8-10 years.
Introducing CedarLife™

CertainTeed’s innovative CedarLife Color Blends capture the appearance of natural Eastern White Cedar and Western Red Cedar at various life stages.

**Natural Blend**

**FRESHLY CUT WHITE CEDAR**

Real white cedar will quickly change to a gray color, so the beauty is short lived. With the bright appearance of freshly cut white cedar, CertainTeed Natural Blend shingles are as close to nature as you can get. The CedarLife technology ensures they will retain their fresh appearance for years to come.

**Cedar Blend**

**FRESHLY CUT RED CEDAR**

The deep, warm tones of freshly cut red cedar degrade over time as ultraviolet light penetrates the wood. Through CedarLife color technology, CertainTeed Cedar Blend shingles provide a natural red cedar appearance that never degrades and will not require continual maintenance.
Make time stand still

Aging takes time – and time can’t be stopped. These two truths impact the look of natural cedar. As cedar weathers, it will continually change color, moving towards, or away, from the desired color preference. CertainTeed’s CedarLife Color Blends make time stand still, assuring that the shades and patterns chosen today will remain fresh and beautiful for a lifetime.

**Driftwood Blend**

**AGED WHITE CEDAR**

Eastern white cedar begins as a lovely light tan and evolves to silver gray as it ages. Although beautiful, more often the color can be uneven depending on the effects of weather exposure on each side of the home. Using CedarLife technology, CertainTeed’s Driftwood Blend shingles provide the look of aged white cedar at its most beautiful stage, keeping that look indefinitely regardless of the effects of weather.

**Rustic Blend**

**AGED RED CEDAR**

Western red cedar starts as a warm russet color that weathers to black over time. In between it can appear as various shades of grays and browns. Almost always, the color can be uneven depending on the amount of sun, wind and rain exposure each side of the home receives. CedarLife technology ensures CertainTeed Rustic Blend shingles capture the seasoned look of cedar with a consistent weathering pattern that will not change over time.
Unsurpassed engineering.

In addition to being beautiful, the Cedar Impressions Single 7” Perfection Shingles panel is engineered to be more installer friendly to ensure a beautiful, low-maintenance authentic cedar shingle look upon completion.

TrueTexture™
Cedar Impressions Single 7” Straight Edge Perfection Shingles are designed to capture the look of freshly sawn wood, utilizing a direct transfer system from real cedar shingles for a natural TrueTexture woodgrain finish.

Accessory Color Matches
These CertainTeed solid colors coordinate best with CedarLife™ Color Blends when choosing accessories:

- Natural Blend = Buckskin
- Cedar Blend = Mountain Cedar
- Driftwood Blend = Granite Gray
- Rustic Blend = Sable Brown
Blended Color Throughout

The beautiful colors and shades of Cedar Impressions shingles are an integral component of the siding. Unlike competitive products that have color applied only on the surface, CertainTeed’s proprietary, patent-pending manufacturing process results in blended color throughout the shingle. The result is an authentic, blended-wood look.

Offset Corner Design

Patented A, B, C, D corners help corners to blend naturally and allow subtle adjustments up the walls.

The patented PanelThermometer™ and temperature lines are designed to ensure precise installation.

SureStop™
Recessed nailing area

HammerTapper™
Assist pads

EasyMeasure™
Tape Measure

Nail Indicators

Engineered Drainage Holes
