

# COMMERCIAL CONTRACTOR

Silver Star Credential Program

**CertainTeed**  
SAINT-GOBAIN

# Gain advantages by becoming a CertainTeed Silver Star Contractor.

Professional credentials like this are an excellent way to highlight your company's years of experience, history of high-quality workmanship, and sound business practices — and set yourself apart from the competition.

**Silver Star Contractors** meet the stringent requirements for workmanship and financial stability set by CertainTeed Commercial Roofing. Along with a proven record of quality workmanship and good business practices.

## SILVER STAR CONTRACTORS:

- Can offer No-Dollar-Limit (NDL) warranties up to 12 years
- Gain access to CTNDL.com - NDL warranty site
- Gain access to MyEdge™ website
- Contractor Connections - Direct electronic communications from CertainTeed

## TO BECOME A SILVER STAR CONTRACTOR YOU MUST:

- Carry workers' compensation and liability insurance coverage and be properly licensed according to the regulations in force governing commercial roofing contractors in your market
- Have been in business at least 3 years OR have CertainTeed inspect at least 3 roofing projects
- Adhere to the code of ethics

## TO RETAIN STAR STATUS (REVIEWED ANNUALLY):

- You must support and promote CertainTeed products
- Workmanship must be of the highest standards for all roofing projects
- You must maintain a low level of workmanship-related failures on NDL projects
- You must continue to meet the original requirements for admission into the program

## PROGRAM DETAILS

All applications for Silver Star Contractor credentials must be approved by both the CertainTeed Commercial Roofing Territory Manager and District Sales Manager. For more information, contact your local Commercial Territory Manager.

## SYSTEM SPECIFICATIONS

CertainTeed Silver Star Contractors, when installing CertainTeed-approved roof systems, must follow CertainTeed's published recommendations and requirements for commercial roofing system specifications found in its current Commercial Roof Systems Manual. CertainTeed construction details, found in the Systems Manual, must be followed. When a detail cannot be found in the manual, NRCA current published details are an acceptable substitute.
